

La Hacienda at La Posada Service Package and Fees

La Hacienda at La Posada (Enhanced Assisted Living)

La Hacienda Licensing and Certifications

La Hacienda at La Posada provides high-level assisted living options in a residential setting where staff experience, personal choice and privacy come together in a new long-term care model. La Hacienda is licensed under the Arizona Department of Health Services for Assisted Living and is part of the award-winning, CARF-CCAC accredited La Posada continuum of care.

Residents of the La Posada continuum have priority access to La Hacienda, but we welcome residents from the greater Green Valley community to make La Hacienda their home when space is available.

Service Philosophy

La Hacienda at La Posada provides high-level assisted living options in a residential setting where staff experience, personal choice and privacy come together in this new vision of long term aging services. Our team of skilled professionals work in collaboration to ensure our residents receive the physical and emotional support they need. Following the oversight of our medical director, La Hacienda has 24-hour nurse staff, a professional full-time care team and outpatient therapy services all committed to ensuring your long term needs are well met.

La Hacienda uses a person centered approach to long term enhanced assisted living. This unique approach allows for each resident to work with the staff to customize a life plan that works best for them.

La Posada Outpatient therapies are part of the La Hacienda team and are well positioned to help all residents maximize their physical and wellness potential. Our aquatic therapy program and pool is like none other in our area and open for La Hacienda and all Assisted Living residents should the need arise. Insurance and Medicare Part B coverage is accepted.

La Posada therapists encourage their therapy participants to be directly involved in their own care, to perform familiar tasks, and to take charge of their recovery process.

Residents of La Hacienda are encouraged to share their life history and to continue to explore the many varied interests that make their life meaningful and enriching.

Families are welcome to participate in all aspects of recovery and supportive care, in keeping with La Hacienda's holistic, person-centered care approach.
